Objective

To maintain a career in CSIT that will allow me to utilize my skills and experience as a software craftsman, developer, designer, problem solver, and troubleshooter.

Experience

CGB Enterprises
- Software Developer II, Fall 2021 - Present
- Software Developer I, Spring 2020 - Fall 2021
- Computer Science Intern, Winter 2018 - Spring 2020
    - Migrated customer facing mobile app from Cordova to Capacitor
    - Part of a team that is developing and maintaining a new client website and hybrid mobile app using Angular and Ionic with a .NET backend
    - Part of a team that is developing and maintaining internal company utilities using Angular, Blazor, and .NET

Emergent Method/Deloitte Consulting
- Consulting Intern, Summer 2018-Winter 2018
    - Met with clients to discuss software and documentation specifications
    - Created and updated software mock-ups
    - Created and updated database mapping documentation in the forms of both graphical mappings (Logical Data Models) and Excel spreadsheets
    - Maintained and updated parts of the documentation for the new State of Louisiana Medicaid/Medicare system as per the client's specifications

Southeastern Louisiana University
- Teaching Assistant, Fall 2018-Winter 2018
    - Taught and helped run the CMPS 285 project class typically for sophomore CSIT students at Southeastern Louisiana University under Dr. Ghassan Alkadi

Education

Southeastern Louisiana University, Hammond, LA 70402
